

DRIVER HG

Description

Monograde lubricant oil developed to cover the needs of low demand 4-stroke petrol engines. Its detergent capacity keeps combustion waste under control, thereby preventing it from being deposited in the engine. As it is made with refined mineral base oils, its carefully studied additives enable oxidation, corrosion and wear of internal engine parts to be controlled.

Properties

- Oil with anti-wear properties.
- Good anti-corrosion properties.
- Low consumption and stable against oxidation thanks to the use of refined and low volatility base oils.

Quality levels, approvals and recommendations

- API: SB

Technical specifications

	UNIT	METHOD	VALUE	
SAE Grade			40	50
Density at 15 °C	g/cm ³	ASTM D4052	0.891	0.897
Kinematic viscosity at 100 °C	cSt	ASTM D445	14.9	19.1
Kinematic viscosity at 40 °C	cSt	ASTM D445	154	225
Viscosity index		ASTM D2270	> 95	> 95
Flash point, open cup	°C	ASTM D92	> 220	> 230
Pour point	°C	ASTM D97	-21	-18
Sulphated ashes	% in weight	ASTM D874	0.1	0.1

The above mentioned characteristics are typical values and should not be considered product specifications.
